

FIGURE 2

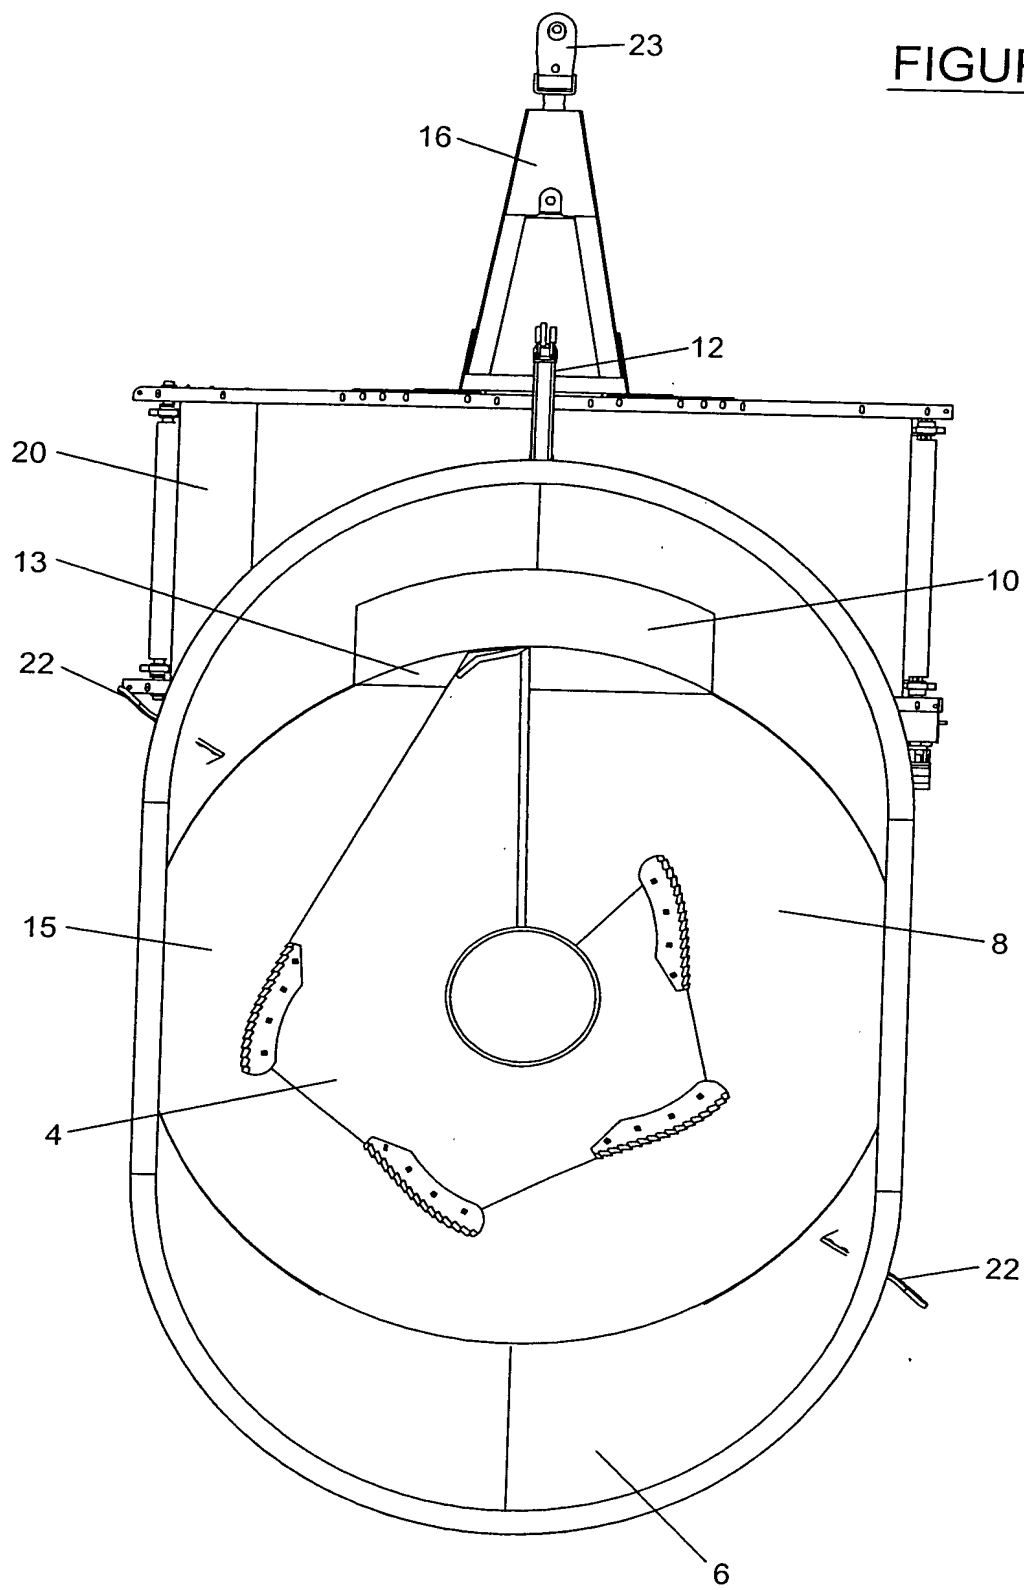

FIGURE 3

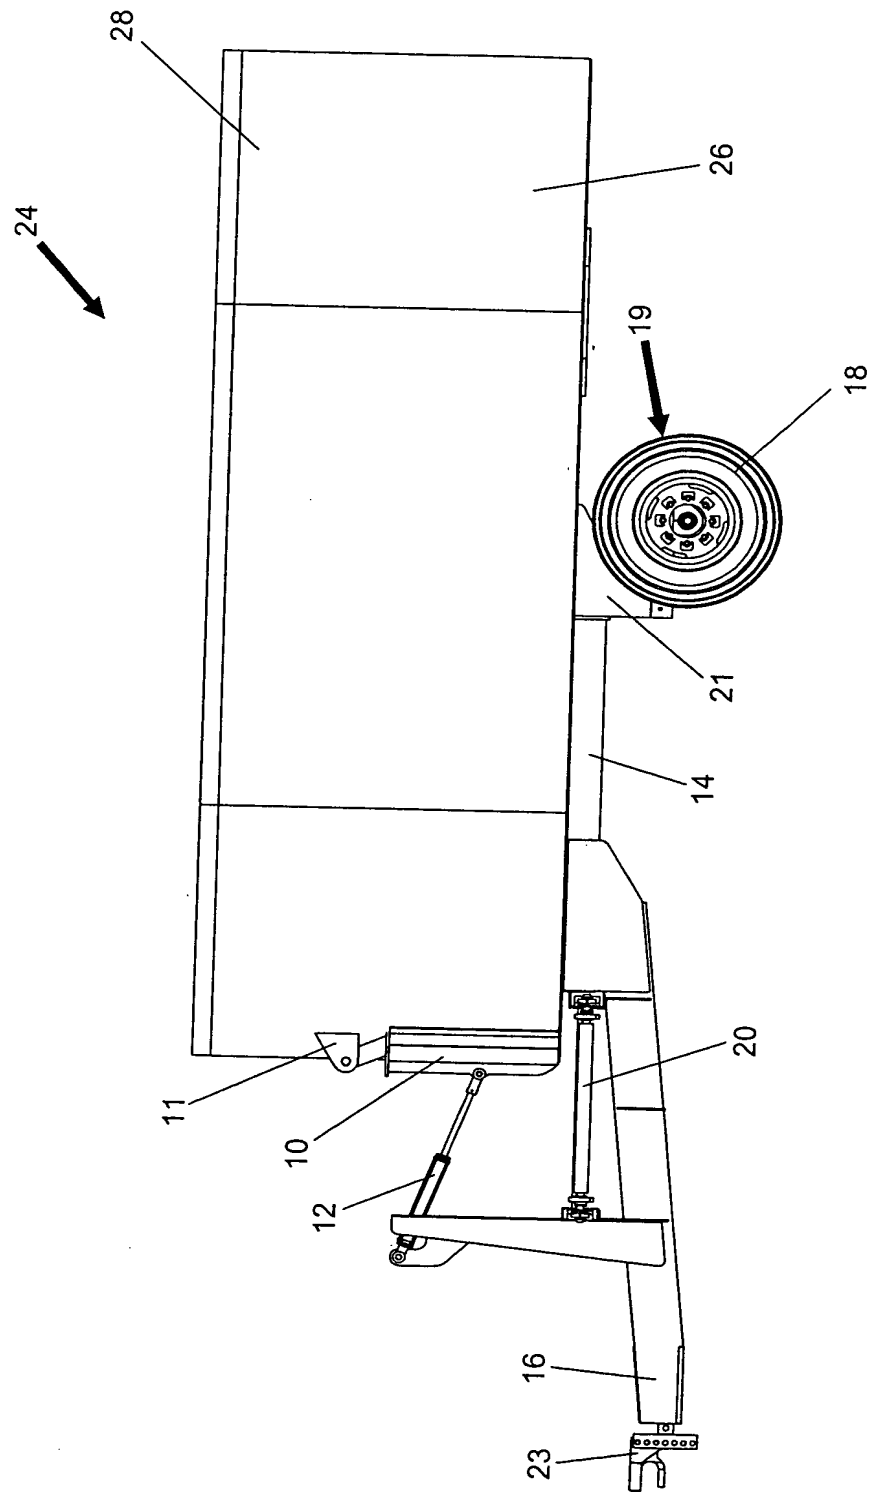

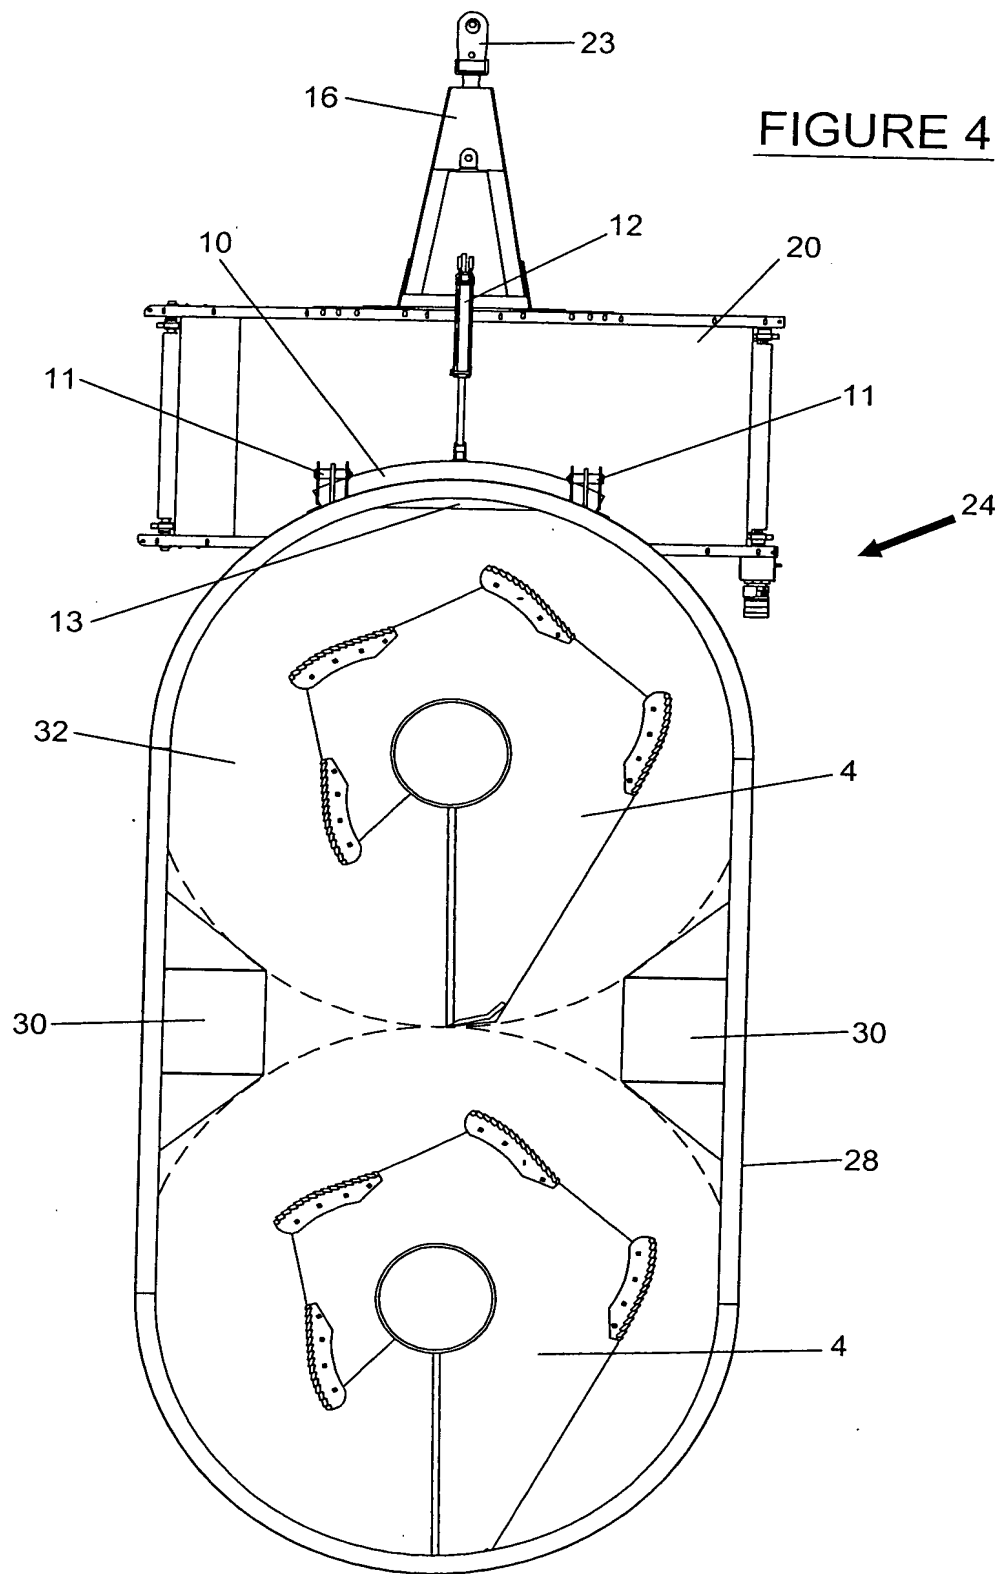

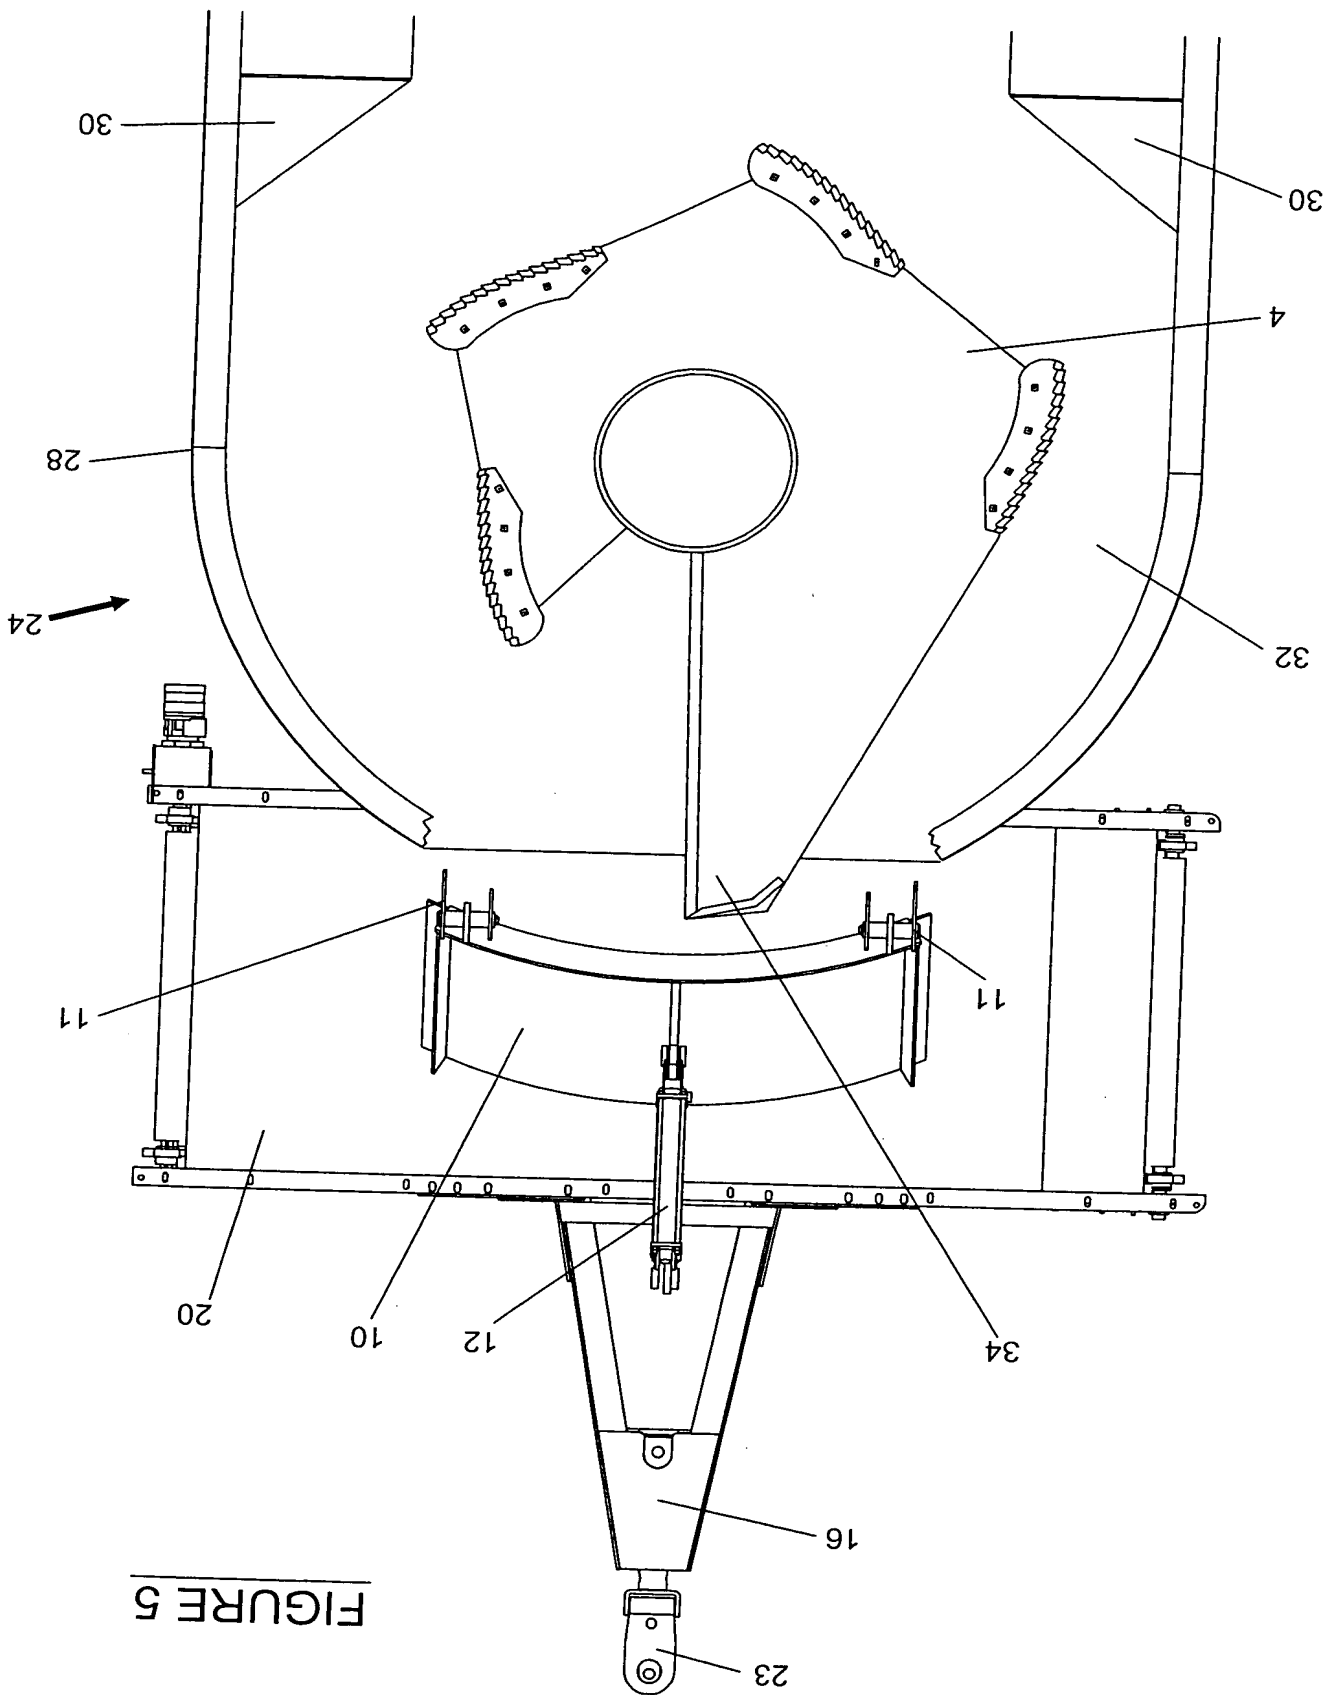

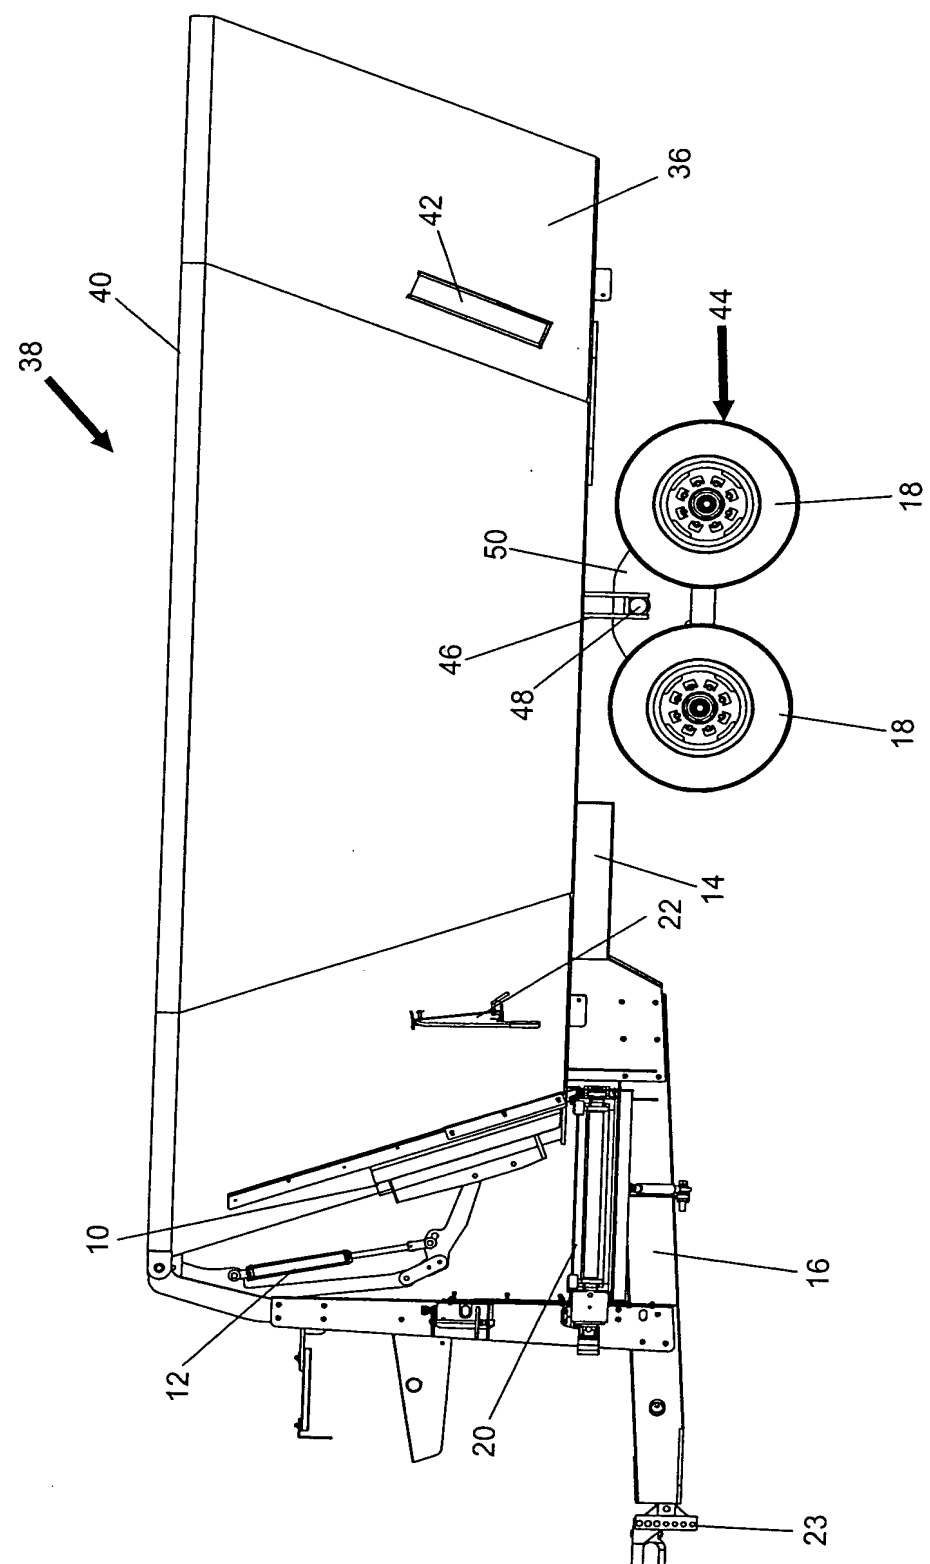

FIGURE 4

**FIGURE 7**

FIGURE 7 is a perspective view of a mechanical assembly, likely a vehicle seat or backrest, showing a complex linkage system. The assembly includes a curved frame (8) and a central panel (10). A linkage mechanism (11, 12, 15, 20) is shown, which appears to be a scissor or parallelogram linkage. A small detail view (22) is shown in the upper right corner, illustrating a component of the linkage. A curved arrow (2) indicates the direction of movement or rotation.
